Broadband Infrastructure Program
Consolidated Appropriations Act, 2021
April 2021
Housekeeping

Questions

• Type questions in the Q&A box on the right-hand side of the screen. Questions and answers will be available on the FAQ section of our website.

• Overview of Consolidated Appropriations Act, 2021 | BroadbandUSA (doc.gov)

Presentation

• The presentation along with a transcript and recording will be available on the BroadbandUSA website under Events/Past Event on or before May 5, 2021.

• broadbandusa.ntia.doc.gov/events/past-events
Presenters:

- Douglas Kinkoph, Associate Administrator
  Office of Telecommunications and Information Applications, NTIA
- Sarah Bleau, Broadband Program Specialist
  Office of Telecommunications and Information Applications, NTIA
- Gilbert Resendez, Broadband Program Specialist
  Office of Telecommunications and Information Applications, NTIA
- Karen Perry, Senior Policy Analyst, NTIA

Moderator:

- Laura Spining, Deputy Associate Administrator
  Office of Telecommunications and Information Applications, NTIA

Douglas Kinkoph  
Associate Administrator  
Office of Telecommunications and Information Applications, NTIA
“We need to start seeing infrastructure through its effect on the lives of working people in America. What is the foundation today that they need to carve out their place in the middle class … to live, to go to work, to raise their families with dignity … no matter who they are or what zip code they live in?”

President Joe Biden, The American Jobs Plan
NTIA’s Commitment to Connecting America

The Department of Commerce supports the Biden Administration’s agenda and our partner agencies to ensure that every American has access to affordable and reliable broadband and has the skills and opportunities to participate fully.

- **Deploy broadband infrastructure to communities with the greatest need.**
- **Support job creation and workforce development by ensuring that all Americans have broadband, devices, and digital skills.**
- **Collaborate with states, Tribes, industry, and federal agencies to effectively expand broadband access and digital inclusion.**
- **Use data to inform policies and investments in broadband at all levels of government.**
Millions of Americans Don’t Have Reliable Broadband

• **17 million Americans do not have** basic broadband @ 25/3 Mbps.

• **20.9% of Tribal lands and 17.2% of rural lands** do not have 25/3 Mbps broadband.

• While 95.6% of households have access to 25/3 Mbps broadband, **only 68.9% of households subscribe** to service at that level or above.

Visualization: NTIA National Broadband Availability Map (NBAM)
Source: FCC 2021 Broadband Deployment Report, based on ISP-reported Form 477 data

Red areas indicate where wireline broadband service is unavailable at the basic FCC benchmark speed of 25/3 Mbps based on FCC Form 477 carrier-reported data.
Broadband Adoption is Uneven Across Communities

• **65 million Americans** do not use the Internet at all.
• **10 million Internet users** rely solely on a mobile data plan.
• **5 Million households** not online identified **cost as their main reason** for not using the Internet.
• Under-connected Americans are disproportionally likely to be low-income, non-white, rural, Tribal, older, and differently-abled.

Source: NTIA Internet Use Survey, based on consumer 2019 surveys of 52,000 households
It’s Time to Invest in the American Workforce

• **77% of all jobs** require at least some technology skills.

• **48% of hiring managers** say that candidates lack the skills needed to fill open jobs.

• **29% of students without basic digital skills** say they won’t consider post-secondary studies.

• **More than 12 millions households** lack access to a computer, tablet or smartphone.

Residents without devices have fewer opportunities to hone their digital skills, access educational opportunities, and advance in the workforce.

*Consolidated Appropriations Act, 2021*
Broadband Infrastructure
Program Overview

Sarah Bleau
Broadband Program Specialist
Office of Telecommunications and Information Applications, NTIA
Broadband Infrastructure Program Overview

- $300 Million
- Covered Partnerships
- Covered Broadband Projects
- Anticipate Accepting Applications Through July 2021
Key Definitions: Qualifying Broadband Service

- A download speed of not less than 25 Mbps;
- An upload speed of not less than 3 Mbps; and
- Latency sufficient to support real-time, interactive applications.
Key Definitions: Unserved

- Household lacking access to qualifying broadband service; and
- No broadband provider has been selected to receive, or is otherwise receiving, Federal or State funding subject to enforceable build out commitments to deploy qualifying broadband service in the specific area where the household is located.
Eligibility

To be eligible for a grant under the Broadband Infrastructure Program, the covered partnership must submit an application that describes the following:

- **Covered Partnership**
- **Covered Broadband Project**
- **Proposed Service Area**
- **Other Federal & State Support**

**Note:** Each Covered Partnership may submit only one application for this grant program.
Section 905(d)(4) of the Act stipulates that the Assistant Secretary will give priority, in decreasing order, for:

- Projects designed to provide broadband service to the greatest number of households in an eligible service area.

- Projects designed to provide broadband service in an eligible service area that is wholly within any area other than a county, city, or town with more than 50,000 inhabitants and the urbanized area contiguous and adjacent to a city or town of more than 50,000 inhabitants.

- Projects that are most cost-effective, prioritizing such projects in areas that are the most rural.

- Projects designed to provide broadband service with a download speed of at least 100 Mbps and an upload speed of at least 20 Mbps.
Application
Key Application Dates

• Complete applications must be received by www.grants.gov no later than 11:59 p.m. Eastern Daylight Time on the date that is 90 days after publication of NOFO.

• NTIA expects to complete its review and selection of successful applicants 90 days after application deadline.
The covered partnership must expend the grant funds within one year after receipt.

- The Assistant Secretary may grant an extension for broadband construction projects.
- To qualify for an extension, the covered partnership must certify that: it has a plan for use of the funds; the construction project is underway; or extenuating circumstances require an extension to ensure project completion.
Gilbert Resendez
Broadband Program Specialist
Office of Telecommunications and Information Applications, NTIA

Interagency & State Coordination
State Broadband Leaders Network (SBLN)

• SBLN: community of practitioners who work on state broadband initiatives.
• Participants share priorities and best practices and discuss emerging telecommunications policy issues.
• 50 states, the District of Columbia and 3 territories participate in the SBLN.
• Consists of broadband directors, managers, and staff from Governor's offices, Economic Development/Commerce Departments, CIO offices, University Extension programs.
• Virtual meetings monthly and twice per year in person.
• NTIA compiles information on state broadband activities, including broadband programs and plans, funding, data collection, mapping and definitions of broadband.
State Broadband Page

One-stop shop for resources on state broadband efforts

Active network of state leaders leading state-level broadband efforts

Channel for communication and review of polices between federal agencies and states
Interagency Coordination on Broadband

• Improving coordination of federal broadband programs and policies
• Promoting consistency across federal broadband programs
• Encouraging regional coordination of federal technical assistance services
• “One-stop” for information on federal broadband programs and permitting policies

broadbandusa.ntia.doc.gov/ntia-resources/broadbandusa-federal-interagency-work
BroadbandUSA Funding Search

• BroadbandUSA Funding Search
• One-Stop for information on broadband funding across all federal agencies through searchable database
• Search by eligible recipient, program area, or sponsoring Agency or Department
• Updated annually
One-Stop Permitting Information

The federal government controls 640 million acres or 28% of U.S. land. Federal lands and assets play a critical role in telecom networks – through rights-of-way access.

Federal agencies collaborated to streamline processes, identify points-of-contact, and publish a one-stop shop for permitting information at BroadbandUSA.

A number of agencies are also using a common SF-299 Common Application Form for permitting applications.
