Biden Administration on Broadband
“We need to start seeing infrastructure through its effect on the lives of working people in America. What is the foundation today that they need to carve out their place in the middle class … to live, to go to work, to raise their families with dignity … no matter who they are or what zip code they live in?”

President Joe Biden, The American Jobs Plan
NTIA’s Commitment to Connecting America

The Department of Commerce supports the Biden Administration's agenda and our partner agencies to ensure that every American has access to affordable and reliable broadband and has the skills and opportunities to participate fully.

Deploy broadband infrastructure to communities with the greatest need.

Support job creation and workforce development by ensuring that all Americans have broadband, devices, and digital skills.

Collaborate with states, Tribes, industry, and federal agencies to effectively expand broadband access and digital inclusion.

Use data to inform policies and investments in broadband at all levels of government.
Millions of Americans Don’t Have Reliable Broadband

• 17 million Americans do not have basic broadband @ 25/3 Mbps.

• 20.9% of Tribal lands and 17.2% of rural lands do not have 25/3 Mbps broadband.

• While 95.6% of households have access to 25/3 Mbps broadband, only 68.9% of households subscribe to service at that level or above.

Red areas indicate where wireline broadband service is unavailable at the basic FCC benchmark speed of 25/3 Mbps based on FCC Form 477 carrier-reported data.

Source: FCC 2021 Broadband Deployment Report, based on ISP-reported Form 477 data
Broadband Adoption is Uneven Across Communities

• **65 million Americans** do not use the Internet at all.

• **10 million Internet users** rely solely on a mobile data plan.

• **5 Million households** not online identified **cost as their main reason** for not using the Internet.

• Under-connected Americans are disproportionately likely to be low-income, non-white, rural, Tribal, older, and differently-abled.

Source: NTIA Internet Use Survey, based on consumer 2019 surveys of 52,000 households
It’s Time to Invest in the American Workforce

- **77% of all jobs** require at least some technology skills.
- **48% of hiring managers** say that candidates lack the skills needed to fill open jobs.
- **29% of students without basic digital skills** say they won’t consider post-secondary studies.
- **More than 12 millions households** lack access to a computer, tablet or smartphone.

Residents without devices have fewer opportunities to hone their digital skills, access educational opportunities, and advance in the workforce.

Consolidated Appropriations Act, 2021
Grant Programs Overview

1. **Tribal Broadband Connectivity Grants:**
Grants to expand access to and adoption of: (A) broadband service on Tribal land; or (B) remote learning, telework, or telehealth resources during the COVID-19 pandemic: $1 Billion.

2. **Broadband Infrastructure Deployment Grants:**
Grants for covered broadband projects, defined as competitively and technologically neutral projects for the deployment of fixed broadband service in a census block with at least one household or business that does not have access to 25/3: $300 million.

3. **Connecting Minority Communities Pilot Program:**
Grants to eligible recipients in anchor communities for the purchase of broadband internet access service or any eligible equipment, or to hire and train information technology personnel, $285 million.

Eligible Entities

Section 905(a)(8) of the Act stipulates the following eligible entities:

- Tribal governments;
- Tribal colleges or universities;
- The Department of Hawaiian Homelands on behalf of the Native Hawaiian Community, including Native Hawaiian education programs;
- Tribal organizations; and
- Native corporations as defined under Section 3 of the Alaska Native Claims Settlement Act.
Eligible Lands

Section 905(a)(13) defines Tribal Land that can be served as:

• any land located within the boundaries of (i) an Indian reservation, pueblo, or rancheria; or (ii) a former reservation within Oklahoma;

• any land not located within the boundaries of an Indian reservation, pueblo, or rancheria, the title to which is held—
  • (i) in trust by the United States for the benefit of an Indian Tribe or an individual Indian;
  • (ii) by an Indian Tribe or an individual Indian, subject to restriction against alienation under laws of the United States; or
  • (iii) by a dependent Indian community;

• any land located within a region established pursuant to section 7(a) of the Alaska Native Claims Settlement Act (43 U.S.C. 1606(a));

• Hawaiian Home Lands, as defined in section 801 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4221); or

• those areas or communities designated by the Assistant Secretary of Indian Affairs of the Department of the Interior that are near, adjacent, or contiguous to reservations where financial assistance and social service programs are provided to Indians because of their status as Indians.
Key Requirements of the Act

- 180 days from award for grantee to commit funds
- 1 year completion deadline for digital inclusion, telehealth, education, telework projects
- 1 year completion deadline for infrastructure projects with extensions that can be requested
- Only 2% allowed by Act for an eligible entity’s administrative expenses

Eligible entities receiving awards for new construction of broadband infrastructure must prioritize projects deploying that infrastructure to unserved households
Clarifications

**Timeline for TBCP grant projects**

The Act provides for a **one-year award period from the receipt of grant funds**.

Extensions For Infrastructure Projects: The Assistant Secretary may extend the period required for the expenditure of funds under the Tribal Broadband Connectivity Program for an eligible entity that proposes to use the grant funds for construction of broadband infrastructure if the eligible entity certifies that:

(I) the eligible entity has a plan for use of the grant funds;

(II) the construction project is underway; or

(III) extenuating circumstances require an extension of time to allow the project to be completed.

Extensions are not available for Broadband Use and Adoption Projects.
Clarifications

No Match Required.
Nation-to-Nation Consultation

Dialogue to inform the priorities of NTIA’s Tribal Broadband Connectivity Grant Program.

- **February 5, 2021**
- **February 10, 2021**
- **February 12, 2021**
- **Written Comments from more than 50 Tribal Nations**

*Through robust dialogue, we are committed to building a program that meets Tribes where they are, on their path to connectivity.*
Tribal Consultation – Topics Covered

- Tribal Priorities
- Equitable Distribution
- NEPA and Cultural Resources
- Unserved Areas
- Reporting

Tribal Broadband Connectivity Program Eligible Projects
Eligible Projects – Infrastructure

• Middle mile
• Last mile
• Submarine cable landing stations
Eligible Projects – Broadband Planning
Broadband Planning

Community Priorities Shape a Project from Inception to Implementation
Broadband Project - Business Plans

Business planning and ongoing project management improves project sustainability.

Step 1. Make decisions on network types based on community roadmap & partnership assessment

Step 2. Perform market research

Step 3. Determine demand service offering

Step 4. Complete environmental, cultural, historical reviews

Step 5. Consider operational requirements

Step 6. Document financial projections
## Infrastructure - Best Practices

Eligible Projects – Inclusion and Use

Projects that promote the adoption and use of broadband services, including:

- affordable broadband programs, such as providing free or reduced-cost broadband service and preventing disconnection of existing broadband service
- distance learning
- telehealth
- digital inclusion efforts
- broadband adoption activities
Digital Inclusion – Best Practices

Partner with trusted organizations, schools, libraries, TCUs, community health centers, workforce and community development organizations, community-based organizations, and nonprofits.

Access / Affordability

- Utilize discount broadband subscription programs.
- No one size fits all solution.

Devices

- Provide technical support and help through community-based programs.

Technical Help and Support

- Go to where people are.

Digital Skills and Training

- Train community members.
- Base digital training on community needs and wants.
Examples of Digital Inclusion Programs

Access / Affordability

• Discount Broadband, Public WiFi, Cell on Wheels (COWs), Mobile Hotspots, Internet in Public / Affordable Housing, WiFi Buses

Devices

• School Laptop Programs, Refurbished Computers, Discount Computers, Laptop Lending, Public Computer Centers, Mobile Computer Labs

Technical Help and Support

• Tech Support Hotlines, Digital Connectors / Navigators, Technology Organizers, Volunteers, Community Tech Events

Digital Skills Training

• Digital Literacy, Online Safety, Workforce Training and Apprenticeships, Health, STEM/STEAM
State Broadband Leaders Network

One-stop shop for resources on state broadband efforts

Active network of state leaders leading state-level broadband efforts

Channel for communication and review of policies between federal agencies and states
One-Stop Permitting Information

The federal government controls 640 million acres or 28% of U.S. land. Federal lands and assets play a critical role in telecom networks – through rights-of-way access.

Federal agencies collaborated to streamline processes, identify points-of-contact, and publish a one-stop shop for permitting information at BroadbandUSA.

A number of agencies are also using a common SF-299 Common Application Form for permitting applications.
